Office Action Summary

Art Unit: 2839

Parent case paragraph must be updated by addition of – now abandoned --.

Applicant is asked to submit drawing, spec corrections of parent case for use in this case and to submit prior art listings (PTO-1449) that are proper for this case.

Claims 1-28 are present in the original papers filed.' In the preliminary amendment, claims listed as numbers 27-47 are added; these claims are renumbered as claims 29-49 and are referred to below as renumbered. Applicants should correct their copy and claims 29-49 resubmitted with dependencies corrected. Claims 1-49 are now listed as being present and any new claims submitted must start with claim 50.

Restriction to one of the following inventions is required under 37 USC 121;

I Claims 1-28 drawn to a power supply cable and to a method of making such cable, class 174.

II Claims 29-49 drawn to electrical connector, method of making such connector and to a system using the connector.

The inventions are distinct, each from the other because:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions the invention limitations do not overlap and could be used apart from each other.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2839

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication should be directed to Abrams Neil at telephone number (571)272-2089.
